

Northeast biofuels
invites you to the

WHEAT GROWER NETWORK

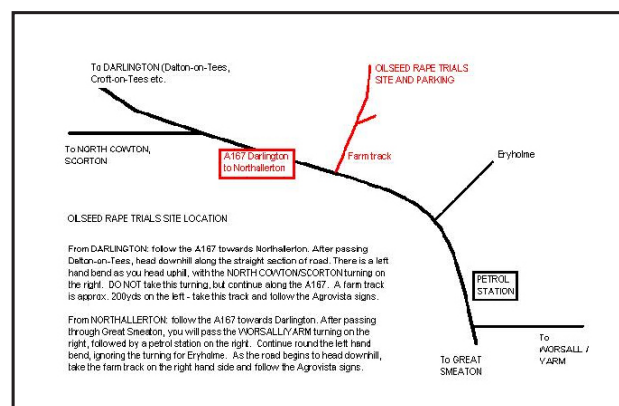

Open Day and Trials Demonstration
Wednesday 23th June 2010 from 10.00am to 5.00pm
Eryholme, near Darlington

Northeast Biofuels - a cluster of businesses associated with agriculture and the petrochemical industry, supported by the Regional Strategy for Transport Biofuels, has been developing the biofuels industry within the North East and promoting an emerging market for the winter wheat and oilseed rape crops as feedstock for bioethanol and biodiesel production.

We are pleased to invite you to attend our 2010 winter wheat for bioethanol demonstration site, located at Eryholme near Darlington, arranged with the kind permission of the Gibbon family and co-operation of NEB member company Agrovista UK Limited. The 2010 demonstration includes:

- Comparison of wheat varieties, fungicides and development products
- Nitrogen application rates and timings - their impact on carbon footprint and bioethanol yield
- Farm business advice clinic from Agrogate specialist
- A range of exhibitors including:

ADAS - Agrovista UK – Agrogate – BASF – Bayer – Dow – DuPont – Ensus – Farm Image – Farmway Lancrop - Makhteshim – Muddy Boots - Northeast Biofuels – Simba – Vaderstad – United Oilseeds - Yara

- NRoSO and BASIS CPD points awarded for those attending
- Food and refreshments provided

For further information, please contact your local Agrovista agronomist or Chris Glover on (07990) 541 278 or chris.glover@agrovista.co.uk www.agrovista.co.uk
