# What 'GOOD' looks like

## INCREASE PRODUCTIVITY

- Work through key processes in less time
- Win more business
- Serve more people
- Increase your revenue

## IMPROVE OVERHEADS

- < costs of technology
- <cost to maintain
- <cost to train staff
- <project / upgrade costs

## INVESTMENT IN PEOPLE

- Happier workforce
- Higher engagement
- Lower staff turnover
- Less absenteeism
- Attracting talent

## REDUCE RISK

- Maintain compliance & reduce likelihood of fines / legal fees
- Safer Operations
- Improve business continuity

## DRIVE INNOVATION

- New products and services
- Process improvement and automation
- New ways of working
- User experience

## The 'Gotcha's'

A big fancy technical system will fix everything!

If we build it, they will come!

We can 'clean' our data later!

Engineering contractors and suppliers have your information best-interests at heart!

Information Management **doesn't provide any** business benefit.

# So why work with us?

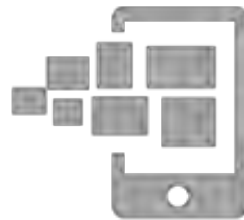

WE  
UNDERSTAND  
DATA

**We're Content**  
Kings when it  
comes to  
engineering  
information

UNITE YOUR  
DATA WITH AN  
MDM

the special-  
sauce that  
delivers the  
biggest return

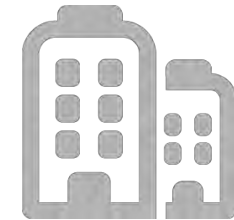

WE ARE NOT  
LED BY  
TECHNOLOGY

As much as  
possible we  
work with what  
**you've already**  
invested in

WE  
UNDERSTAND  
BEST PRACTICE

We know what  
best practice  
looks like &  
appropriate  
standards

CAPABILITY  
FOR ANY SIZE  
ORG.

Flexible, scaling  
up/down to suit  
your needs
