

## Britishvolt Supplier Outreach FAQ

### 1. Can you describe the Britishvolt opportunity?

Please watch the Britishvolt overview video – this outlines the opportunity and provides some additional detail.

### 2. How will this be delivered?

Please watch the webinar which shares the phases of delivery activity, including our plan on the split of responsibilities and our partners and the approach we will be taking.

### 3. What are the areas of importance to your Procurement team?

- Focus on long term and strategic relationships.
- Focus on local supply chain and/or co-located suppliers.
- Focus on a sustainable supply chain.
- Focus on continuous improvement (quality, performance, time and costs).
- Focus on supplier Environmental, Social and Governance (ESG) factors.

Please watch the webinar which shares some additional detail on these ESG factors.

### 4. What types of trades / services / goods are Britishvolt and its partners interested in right now?

- The opportunities are broad and wide. Consider all the variety of requirements a Gigaplant might have... Britishvolt will follow different engagement routes for different requirements.
- These routes are tailored to ensure that each potential supplier is given the appropriate attention and focus.
- These routes vary dependent upon the categories of goods/services that the supplier can provide.

**ISG** have provided the below list – if you are able to perform any of these activities please send an email to [suppliers.projectphoenix@isgltd.com](mailto:suppliers.projectphoenix@isgltd.com) for ISG registration.

### 5. How will you evaluate potential suppliers?

The way that we engage, qualify, evaluate, and contract, with our suppliers will always have the principles of ESG at its heart.

Prequalification of subcontractors will consider their experience on **similar projects**, their **previous performance, financial stability, health and safety records, their values, current and future workload** and any other matters that would affect their suitability for this project.

At the conclusion of the prequalification exercise a list of suitable subcontractors and suppliers will be prepared for review and endorsement of the professional team prior to commencement of the tender process.

### 6. How can I register and log interest?

[suppliers.projectphoenix@isgltd.com](mailto:suppliers.projectphoenix@isgltd.com) for ISG registration

[GIGASUPPLYCHAIN@ngbailey.co.uk](mailto:GIGASUPPLYCHAIN@ngbailey.co.uk) for NG Bailey registration

[Procurement@britishvolt.com](mailto:Procurement@britishvolt.com) for Britishvolt registration

### 7. What happens after my organisation registers interest?

All suppliers will receive the below information:

*Auto response*

*We will review our ongoing requirements and respond when relevant and as appropriate.*

### 8. If I register am I guaranteed to become a supplier?

Please note: Registering interest does not mean that your organisation will automatically become a supplier, nor does it guarantee any future award of business. We may require organisation to complete additional pre-qualifications or evaluations as we deem necessary.
