BioYorkshire is a ten year plan to deliver a bold new green agenda.

BioYorkshire is a ten year plan to deliver a bold new green agenda.

BioYorkshire is a ten year plan to deliver a bold new green agenda.

BioYorkshire's key aims

- Adding around £1.4bn in GVA to the UK economy
- Supporting existing industry and new small businesses
 Creating 4,000 jobs across Yorkshire and the UK

Powering the economy

- Driving a new era of bio-manufacturing and sustainable farming
- Reducing 2.8 million tonnes of CO2e annually carbon emissions
- Reducing UK waste to landfill by 1.2 million tonnes per year

Improving the environment

- Transforming the UK's bioeconomy, bringing together world class research, translation facilities, a network of specialised business incubators, and training, skills and entrepreneurial support
- Creating and growing companies to commercially produce the industrial and consumer products from the research

BioYorkshire is a ten year plan to deliver a bold new green agenda.
