NEPIC CLEAN GROWTH CONFERENCE 2023

ABOUT THE CONFERENCE

The UK and individual clusters all have their roadmaps to achieving Net Zero, where the Teesside cluster is well placed to lead the way.

NEPIC's annual Clean Growth Conference allows industry and stakeholders in the North East and further afield to commune and discuss their decarbonisation challenges and opportunities.

The shift to Net Zero is a huge challenge for all industries, fortunately it also provides opportunity for the advancement of businesses and economies through the creation of jobs, new supply chains, and regional investment.

SPONSORSHIP OPPORTUNITIES

Main Event Sponsorship

Package includes:

- Headline speaking slot
- Exhibition stand
- 5 x delegate passes
- Company logo on all event communications
- Inclusion of company information on event website
- Cover page logo & full-page advert within the digital event conference guide
