TWENTY YEARS SUPPORTING INDUSTRY

NEPIC PHARMACEUTICAL SUPPLY CHAIN SHOWCASE

24 February 2026, East Durham College

About the event

This high-impact session is designed to fast-track connections between the region's pharmaceutical manufacturers and the diverse supply chain that powers them.

Alongside a traditional exhibition, the event kicks off with a dynamic "speed introduction" session where every exhibitor has a dedicated one-minute slot to pitch their capabilities to the entire room. This ensures every delegate gets an immediate snapshot of the expertise available before networking begins.

The agenda also features key industry updates, including insights from our hosts, East Durham College, on their latest facilities and training capabilities.

Whether you are looking to source new partners or showcase your services, this is an efficient and effective way to expand your network.

Exhibition area

The event will include an exhibition area with stands from:
- adi Life Sciences
- Wade Construction
- Norder Design
- Sanber Lab Services
- PMT (GB) Ltd
- Swan Analytical
- Brenntag Pharma
- Casper Customs
- RAS Ltd
